

CIRQLSPACE — Your Sandbox · Linear Register

Project **CIRQLSPACE — Your Sandbox** · team Chris Nobbs (CHR). Live board: linear.app → CIRQLSPACE — Your Sandbox. Generated 2026-07-07 (rev 8). **Status: BUILDING** — **A** + **B** + **C** + **D** + **E COMPLETE**; **Phase H (Sit, Zoom & Diorama)** pulled ahead as the next build; **F + G** still queued.

Legend: Done · In progress · Todo · not yet a Linear issue (free-tier issue cap) — tracked in the plan.

Summary

Milestone	Issues	Status
A · Restructure — blank CIRQLSPACE + Town	6	DONE (6/6)
B · Building v1 (objects)	4	DONE (4/4)
C · Terrain paint	3	DONE (3/3)
D · Land growth (cozy → estate)	3	DONE (3/3)
E · Live parties	4	DONE (4/4)
H · Sit, Zoom & Diorama	4	Next up
F · Town stores (NPC shops)	4	Todo
G · Music & SFX	3	Todo

Note: Linear's free-tier **issue limit** was reached while seeding — milestones **A & B** have real issues (**CHR-266–275**); **C–G** exist as **milestones** in Linear with their scope, but their granular issues () live in the plan doc until the workspace is upgraded.

A · Restructure — blank CIRQLSPACE + Town

- CHR-266** — Strip CIRQLSPACE to a blank buildable canvas (*commit 4c08acf*)
- CHR-267** — Author the Town hub at ring 1 (CirqlCade = one shared entrance) (*4c08acf*)
- CHR-268** — Shift procedural generation to start at ring 2 (*4c08acf*)
- CHR-269** — Rework onboarding: guide NPC teaches building; tutorials move to Town (*77ed7cf*)
- CHR-270** — Inventory panel — owned stock + SPARQS balance + how-to (*commit 45cfcf4*)
- CHR-271** — Remove tapped-business landmarks + enforce CIRQLSPACE-only placement (*963abbf*)

B · Building v1 (objects)

- CHR-272** — Big placeable object catalog (~35 items, 6 categories; nature/structures/lights render as real pixel props) (*commit eb7b392*)
- CHR-273** — Placement: free-form + optional grid snap (# Grid) + Remove; category tabs (*eb7b392*)
- CHR-274** — SPARQS buy→place economy + Inventory stock (*eb7b392*)
- CHR-275** — Object cap 120 + compact {item,x,y} save encoding (*eb7b392*)
- (*deferred within B: move/rotate placed objects — remove+re-place works for now*)

C · Terrain paint (tracked here — Linear cap; built commit fcc8ac2)

- C1** — Ground tilemap (sparse, TILE=30, grass default) + save encoding
- C2** — Paint brush UI: Place ▶ Paint toggle + tile swatches (grass/sand/stone/water/path) + brush sizes 1–3
- C3** — Water tiles non-walkable (per-axis slide-out) + terrain render layer (culled, shimmer)

D · Land growth (cozy → estate) (tracked here — Linear cap; built commit 95fc3b6)

- D1** — Cozy start + 7 tiers (buildable radius 170→430); effR() drives island render + edge-clamp + placement + paint
- D2** — Milestone unlocks (tier 1 free gift · tier 2 free after placing 10) + SPARQS tiers 3–6 (30/70/140/260) + estate cap

- ✓ **D3** — "Your Land" Inventory section: current tier + progress bar + Expand (shows cost/milestone); new land blank
- (deferred: party/visitor milestones — arrive with Phase E)

E · Live parties (*X tracked here — Linear cap; ✓ built commit 395dc6a*)

- ✓ **E1** — Space rooms on presence: ring 0 is personal (`s:` +id), visiting joins the host's room; one `roomKey()` scopes every broadcast; join/leave via `enterRoom()`
- ✓ **E2** — `build` message caches + streams the host's décor + terrain + land tier to visitors (live `visit:build` while they watch)
- ✓ **E3** — Open↔invite-only toggle (`space:mode`) + invites (`space:invite` / `space:invited`) + cap 8 + host-only edit (guarded by the `visiting` flag)
- ✓ **E4** — Live presence in a space (room-scoped move/chat/emote/light) + `space:home` return; host disconnect evicts visitors
- (deferred: visitor land-milestones / party rewards — a later economy pass)

✨ H · Sit, Zoom & Diorama (owner-added 2026-07-07, pulled ahead of F/G · *X issues pending — Linear cap*)

Gather + show off your CIRQLSPACE. Locked: **free-sit** (social only) · **both** zooms · **tilted 3/4 diorama** · **shareable postcard**.

- **H1** — Sit: free-sit toggle pose (anywhere; movement cancels); room-scoped `pose` on presence → seated render for self + remotes
- **H2** — Live zoom: continuous pinch/scroll+buttons `zoom` on the world camera (clamped), doubles as tap-to-travel when zoomed out
- **H3** — Diorama beauty shot: one-tap sweep to **tilted 3/4** — ground-plane squash + billboarded props/avatars + island thickness band + slow orbit + vignette/float-shadow/clouds/golden light + postcard label
- **H4** — Postcard share: capture the diorama frame → shareable card (label baked in) + SPARQS frames/filters

F · Town stores (NPC shops) (*X issues pending — Linear cap*)

- **F1** — Shop buildings → interiors + shopkeeper NPCs
- **F2** — Store inventory model (common + exclusives + special SPARQS items)
- **F3** — Store panel + buy flow (replaces menu-buying)
- **F4** — Quest-gated / hidden stores

G · Music & SFX (*X issues pending — Linear cap*)

- **G1** — CIRQLSPACE MusicKit — adaptive hybrid music (area-varied)
- **G2** — Action + movement SFX
- **G3** — Mix/mute controls + integration
