Overall: 🎉 **55 of 55 issues done — every milestone complete.** Phase 2 (deferred beyond this project): the real-world **tap→sparqs bridge** (a café tap credits the [sparqbank](#) wallet + opens rings for everyone) and territories/regional beacons, layered on the CHR-261 landmarks.

M0 · Foundations (reused) — DONE

- ☒ **CHR-211** — Reuse: /town websocket presence prototype
- ☒ **CHR-212** — Reuse: RetroEngine (supersampled SS=1.5) + glow-up kit start
- ☒ **CHR-213** — Reuse: 50 arcade cabinets + registry + arcade-shell
- ☒ **CHR-214** — Reuse: avatars, shared joystick, game_progress save table

M1 · The World & Movement — DONE (commit b664883, live)

- ☒ **CHR-215** — /cirql route + lazy page scaffold
- ☒ **CHR-216** — World engine: canvas render loop + camera
- ☒ **CHR-217** — Concentric-ring data model + ring configs
- ☒ **CHR-218** — The Hearth (ring 0) authored map + props
- ☒ **CHR-219** — Player movement: WASD + click-to-move + joystick + edge collision
- ☒ **CHR-220** — Minimap: concentric rings + fog + player dot
- ☒ **CHR-221** — Ambient neon polish (glow-up kit: lighting + motes)
- ☒ **CHR-250** — Full-screen sea chart (tap minimap to expand)

M2 · Identity & Persistence — DONE (commit b09c79c, live)

- ☒ **CHR-222** — Cirql state model + save/load endpoints (game_progress 'cirql')
- ☒ **CHR-223** — Load-on-enter + autosave + resume

- ✓ **CHR-242** — Character creation on first entry (move avatar chooser into CIRQL)
- ✓ **CHR-243** — Expand avatar customization (more choices, fun, circle-friendly)

M3 · Quest System (backbone) — DONE (commit 32e4d9e, live)

- ✓ **CHR-224** — Quest progress persisted in the `cirql` state blob (no migration)
- ✓ **CHR-225** — Quest registry + progress engine + reward→sparks hook
- ✓ **CHR-226** — Client: quest log + objective tracker HUD
- ✓ **CHR-227** — Client: NPC quest-givers + waypoint markers

M4 · First Quest Chain (onboarding) — DONE (commit 677bf40, live)

- ✓ **CHR-228** — Quest 1 — "Find Your Feet" (teaches movement)
- ✓ **CHR-229** — Quest 2 — "The Lantern Path" (teaches interact)
- ✓ **CHR-230** — Quest 3 — "The Wonders Door" (find + enter the arcade)
- ✓ **CHR-231** — First-run onboarding scripting hook

M5 · CirqlCade (in-world arcade) — DONE (commit 26eead2, live)

- ✓ **CHR-232** — CirqlCade hall: all live cabinets from the registry
- ✓ **CHR-233** — Press-E launches a cabinet embedded over `/cirql` (iframe)
- ✓ **CHR-234** — Return-to-world flow (catches the game's `/arcade` back-link)
- ✓ **CHR-235** — Score → sparks (spark-a-play MVP; full normalization M6)

M6 · Sparks Economy & Your Cirql — CORE DONE (commit 9f4c0e4, live)

- ✓ **CHR-236** — Sparks currency + World Energy meter
- ✓ **CHR-237** — Your Cirql: friends as lanterns around the Hearth
- ✓ **CHR-238** — Invite-a-friend hook + "share a light" beacon stub
- ✓ **CHR-244** — Earn sparks from play (spark-a-play + daily-capped)
- ✓ **CHR-246** — Spend sparks: in-CIRQL cosmetics (buy-in-place in the creator)
- ✓ **CHR-245** — De-mix currencies (commit 8e3d166, live): arcade made **free** (perk costs→0) + arcade **Dailies earn sparqs** (3/game/day, cap 15/day) via a server 'sparqbank' wallet CIRQL claims. Platform points stay the real-world loyalty economy.

M7 · Playable Slice Hardening — DONE (commit 6b52ba9, live)

- ✓ **CHR-239** — Full-loop smoke test (enter → quests → CirqlCade → play → sparks → resume)
- ✓ **CHR-240** — tsc clean + mobile pass + perf
- ✓ **CHR-241** — Beta-test checklist + deploy + `/cirql` surfaced on the arcade lobby

M8 · Social — presence & chat channels — DONE (commits d23d975 → c982bba, live)

- ✓ **CHR-247** — Live presence in-world (`/ws/cirql`, room per ring)
- ✓ **CHR-248** — Chat channel model: Global / Party / DM (commit c982bba) — 1:1 DMs with a **request/accept** gate, session-scoped, masked + rate-limited; DM directory + threads
- ✓ **CHR-249** — Channel switcher UI + safety/moderation (commit cca07e8) — Global/Party/DM switcher + per-channel unread; **server-side profanity mask** + 700ms rate limit; block/report. Safety decision: freeform + server moderation (not preset)

M9 · Campaigns & Party Finder — DONE (commit a5ee3b3, live)

- ✓ **CHR-251** — Campaign model: co-op multi-step quests (party-scoped)
- ✓ **CHR-252** — Campaign Board: post / browse / join (+ new-player-friendly)
- ✓ **CHR-253** — Party formation + shared waypoint + shared progress
- ✓ **CHR-254** — Matchmaking requests + safety (tags, report/block)

M10 · Endless content engines — DONE (commits bff0024→89cfbcb, live)

- ✓ **CHR-255** — Procedural rings (infinite outward biomes)

- ✓ **CHR-256** — Quest-template generator (infinite authored-feeling quests)
- ✓ **CHR-257** — Daily + seasonal loops (rotating dailies, events, drops)
- ✓ **CHR-258** — Myst-style puzzle quests / campaigns

M11 · Depth & Delight (wishlist — owner-approved) — DONE

Positioning: **Balanced** (family-friendly / chat-free-first defaults + cosmetic-only + kindness mechanics, with fuller chat + competitive edges for older players).

- ✓ **CHR-265** — Interactive voyages: tunnels/underground, treetops & clouds (commit be24ce3, live)
- ✓ **CHR-260** — Emotes + chat-free expression (commit 4749427, live) — 12-emote wheel → timed glyph over local/remote avatars + `/ws/cirql` relay
- ✓ **CHR-264** — More mini-journeys & cutscenes (commit ff50176, live) — reusable skippable letterboxed cutscene player; wired to arrival / onboarding / campaign-complete / world-energy
- ✓ **CHR-262** — Sailing as a mini-journey (commit 41dd953, live) — steer a boat across the sea, gather drifting light, island grows through fog → land + arrival cutscene
- ✓ **CHR-263** — Jump / hop movement (commit 5df8e39, live) — fake-Z hop (raised sprite, grounded shadow) + HOP button + C/H key
- ✓ **CHR-259** — Hearth décor + visiting friends' Hearths (commit a9badec, live) — spark-bought décor catalog, place/remove on your Hearth, persisted; presence-broadcast visiting of online friends' Hearths
- ✓ **CHR-261** — Tapped businesses → in-world landmarks (commit b5b0068, live) — real tapped businesses become signpost landmarks ringing your Hearth (loyalty↔world; sparqs bridge = Phase 2)
