

CIRQLSPACE — Your Sandbox · Linear Register

Project **CIRQLSPACE — Your Sandbox** · team Chris Nobbs (CHR). Live board: [linear.app](#) → CIRQLSPACE — Your Sandbox. Generated 2026-07-07 (rev 15). **Status: BUILDING** — ☒ **A** + ☒ **B** + ☒ **C** + ☒ **D** + ☒ **E** + ☒ **H COMPLETE**. **Chapter 2 (I/J/K — the living world) locked; order I → J → K → F → G**. **Decisions: new Renown + World Energy · tap-ready/wire-later · fully cozy**. ► BUILDING Phase I — I1 (idle life) + I2 (movement juice) + I3 (body-gesture emotes) + I4 (paired social gestures) + I5 (biome movement flavor) DONE; next I6 (world interactions) — last of Phase I.**

Polish pass (owner-requested, 2026-07-07): ① **prop contrast** — trees + bushes no longer blend into same-colour ground: foliage is a deepened biome-grass with a **dark rim silhouette** + a lit top highlight, so they always read; ② **zoom range widened** — 40%→**25%** min (whole island in view) and 130%→**150%** max; ③ **name tags cleaned** — removed the dark box behind character/NPC names; names now draw as **crisp outlined text** lifted clear of the head + emotes; ④ **NPCs got character** — new `cirql-npc-looks.ts` gives every townspeople a real look: coloured outfit + trim/sash, hair + headwear (hood/wide-brim/band/cap), and a signature accessory (staff/lantern/book/satchel/orb/flower). The named cast is hand-authored (Cirqla = hooded teal robe + glowing staff + aura; Ferra = terracotta coat + gold band + book); other keepers derive a **stable hashed look** so a ring's keeper always dresses the same. `drawNpc` rebuilt to paint it (rim silhouette + lit edges + idle breathing).

Legend: ☒ Done · ☒ In progress · ☐ Todo · **⚡** not yet a Linear issue (free-tier issue cap) — tracked in the plan.

Summary

Milestone	Issues	Status
A · Restructure — blank CIRQLSPACE + Town	6	☒ DONE (6/6)
B · Building v1 (objects)	4	☒ DONE (4/4)
C · Terrain paint	3 ⚡	☒ DONE (3/3)
D · Land growth (cozy → estate)	3 ⚡	☒ DONE (3/3)
E · Live parties	4 ⚡	☒ DONE (4/4)
🌟 H · Sit, Zoom & Diorama	4 ⚡	☒ DONE (4/4)
— Chapter 2 · The Living World —		
I · Character Movement & Life	6 ⚡	☒ In progress (2/6)
J · Living Circles — World Population	5 ⚡	Todo
K · Quests, NPCs & Campaigns	6 ⚡	Todo
F · Town stores (NPC shops)	4 ⚡	Todo (after K1)
G · Music & SFX	3 ⚡	Todo (last)

Note: Linear's free-tier **issue limit** was reached while seeding — milestones **A & B** have real issues (**CHR-266–275**); the rest exist as **milestones** in Linear with their scope, but their granular issues (**⚡**) live in the plan doc until the workspace is upgraded.

Confirmed sequence (owner, 2026-07-07): I → J → K → F → G. I (movement) is cheap, engine-side, independent, and elevates everything → first. J (population) builds the landmarks that K's quests anchor to. K1 builds the NPC framework that **F consumes** → F after K. G (music/SFX) last so it scores all the new content. **Locked:** new **Renown** currency (personal, earned-not-spent) + keep shared **World Energy**; **tap-ready but wire real taps later; fully cozy — no combat**.

A · Restructure — blank CIRQLSPACE + Town

- ☒ **CHR-266** — Strip CIRQLSPACE to a blank buildable canvas (*commit 4c08acf*)
- ☒ **CHR-267** — Author the Town hub at ring 1 (CirqlCade = one shared entrance) (*4c08acf*)
- ☒ **CHR-268** — Shift procedural generation to start at ring 2 (*4c08acf*)
- ☒ **CHR-269** — Rework onboarding: guide NPC teaches building; tutorials move to Town (*77ed7cf*)
- ☒ **CHR-270** — Inventory panel — owned stock + SPARQS balance + how-to (*commit 45cfcf4*)
- ☒ **CHR-271** — Remove tapped-business landmarks + enforce CIRQLSPACE-only placement (*963abbf*)

B · Building v1 (objects)

- ✓ **CHR-272** — Big placeable object catalog (~35 items, 6 categories; nature/structures/lights render as real pixel props) (*commit eb7b392*)
- ✓ **CHR-273** — Placement: free-form + optional grid snap (# Grid) + Remove; category tabs (*eb7b392*)
- ✓ **CHR-274** — SPARQS buy→place economy + Inventory stock (*eb7b392*)
- ✓ **CHR-275** — Object cap 120 + compact {item,x,y} save encoding (*eb7b392*)
- (*deferred within B: move/rotate placed objects — remove+re-place works for now*)

C · Terrain paint (*X tracked here — Linear cap; ✓ built commit fcc8ac2*)

- ✓ **C1** — Ground tilemap (sparse, TILE=30, grass default) + save encoding
- ✓ **C2** — Paint brush UI: Place ▶ Paint toggle + tile swatches (grass/sand/stone/water/path) + brush sizes 1–3
- ✓ **C3** — Water tiles non-walkable (per-axis slide-out) + terrain render layer (culled, shimmer)

D · Land growth (cozy → estate) (*X tracked here — Linear cap; ✓ built commit 95fc3b6*)

- ✓ **D1** — Cozy start + 7 tiers (buildable radius 170→430); effR() drives island render + edge-clamp + placement + paint
- ✓ **D2** — Milestone unlocks (tier 1 free gift · tier 2 free after placing 10) + SPARQS tiers 3–6 (30/70/140/260) + estate cap
- ✓ **D3** — "Your Land" Inventory section: current tier + progress bar + Expand (shows cost/milestone); new land blank
- (*deferred: party/visitor milestones — arrive with Phase E*)

E · Live parties (*X tracked here — Linear cap; ✓ built commit 395dc6a*)

- ✓ **E1** — Space rooms on presence: ring 0 is personal (`s: +id`), visiting joins the host's room; one `roomKey()` scopes every broadcast; join/leave via `enterRoom()`
- ✓ **E2** — `build` message caches + streams the host's décor + terrain + land tier to visitors (live `visit:build` while they watch)
- ✓ **E3** — Open→invite-only toggle (`space:mode`) + invites (`space:invite` / `space:invited`) + cap 8 + host-only edit (guarded by the `visiting` flag)
- ✓ **E4** — Live presence in a space (room-scoped move/chat/emote/light) + `space:home` return; host disconnect evicts visitors
- (*deferred: visitor land-milestones / party rewards — a later economy pass*)

✨ H · Sit, Zoom & Diorama (*owner-added 2026-07-07, pulled ahead of F/G · X issues pending — Linear cap*)

Gather + show off your CIRQLSPACE. Locked: **free-sit** (social only) · **both** zooms · **tilted 3/4 diorama** · **shareable postcard**.

- ✓ **H1** — Sit: free-sit toggle pose (anywhere; movement cancels); room-scoped `pose` on presence → seated render for self + remotes (*commit 8e8d5ce*)
- ✓ **H2** — Live zoom: continuous pinch/scroll+buttons `zoom` on the world camera (0.42–1.3, clamped), doubles as tap-to-travel when zoomed out; builds snap to 1:1 (*commit 5ea4896*)
- ✓ **H3** — Diorama beauty shot: one-tap sweep to **tilted 3/4** — ground-plane squash + billboarded props/avatars + island thickness band + slow orbit + vignette/float-shadow/clouds/golden light + postcard label (*commit 716a434*)
- ✓ **H4** — Postcard share: capture the diorama frame → PNG; Web Share sheet on mobile, download on desktop (label baked in) (*commit 716a434*)
- (*deferred: SPARQS-bought postcard frames/filters — a later cosmetic sink*)

Chapter 2 — The Living World (*owner-approved 2026-07-07; from a fresh Mana World re-read of quests + world-population + character animation*)

Guiding idea: **population, quests, and movement are one system.** Fully cozy — no combat; "boss" beats are cooperative set-pieces.

I · Character Movement & Life (*recommended FIRST of Chapter 2 · cheap, engine-side · X issues pending — cap*)

- ✓ **I1** — Idle life: breathing sway + blink + idle fidgets (look-around/stretch) + AFK doze (auto-sit + Zzz); remotes get local breath+blink (*commit eacdbe0*)
 - ✓ **I2** — Movement juice: footstep FX (dust/splash/footprints, world-space) · land squash · collision bump (*turn-in-place folded into I1's look fidget*) (*commit 1a34b1b*)
 - ✓ **I3** — Body-gesture emotes: grew the wheel to 16 (4×4) with real body motions — wave (waving hand), bow (tip+squash), clap (meeting hands + spark), cheer (both arms up), twirl (spin via scaleX), blow-a-kiss (hand + drifting heart), dance (side-to-side sway); shared by hero + remotes, reduced-motion aware (*commit pending*)
 - ✓ **I4** — Paired social gestures: a contextual **"Together with {name}"** panel when you stand by a traveller → High-Five / Hug / Dance / Sit. One request relays to BOTH (same room-scoped handshake as share-a-light, new **pair** → **paired**), each side turns to face the other + plays the synced I3 motion + a shared flourish blooms between them (spark / hearts / notes). Raw two-socket + in-browser verified (*commit pending*)
 - ✓ **I5** — Biome movement flavor: footsteps now read the ring's biome — pale lingering **snow** prints (winter), tan **sand** prints (desert/coast), dark **ash** puffs (ember), soft dust elsewhere; coast/tropical **shore-wading splash** near the edge; **ice-slide** (winter = slippery low-friction glide); **breath-puff + shiver** in the cold; **aura flutters on a per-biome wind**. All client-side, reduced-motion aware. Verified across winter/desert/coast/ember rings (*commit pending; literal cape flutter deferred — no cape asset; remotes stay simple like I1/I2*)
 - **I6** — World interactions: pet a critter (heart) · hold/present an item · knock/wave entering a shop or sub-map
- (*Deferred/bigger: dodge-roll · real swim · glide in cloud sub-maps · rideable companion.*)

J · Living Circles — World Population (*the substrate + landmarks quests hang on · client-side generator/art · X issues pending — cap*)

TMW mapping rules encoded as generator rules: never bald · break monotony · organic never-grid · design focal points · frame the edges · depth via layers.

- **J1** — Biome Kit: per-biome signature plant + critter + structure + ground/light + placement rules (Meadow/Woodland/Dunes/Tundra/Marsh/Coast/Highland/Starfall)
- **J2** — Liveliness checklist in the generator (full ground · 1–2 landmarks · signature trio · organic clusters+path · framed shore · gathering clearing · depth · ambient motion · day/night)
- **J3** — Richer prop + groundcover palette + fore/over depth layers + day↔night dressing
- **J4** — Focal landmarks (hand-authored set-pieces = quest homes + postcard subjects + meeting spots)
- **J5** — Ambient-life expansion: more critters + behaviours + night swaps; interactive with I6

K · Quests, NPCs & Campaigns (*the endless heart · depends on J's landmarks · shares NPC work with F · X issues pending — cap*)

- **K1** — NPC + dialog framework (reusable actor + branching dialog + quest-state; **F consumes this**)
- **K2** — NPC cast + onboarding-as-quest-chain (Cirqla/Ferra/Cartographer/Lighthouse Keeper/Festival-Master/artisans/Bard/Hermit; each teaches one system → "First Circle" graduation)
- **K3** — Quest taxonomy engine: gather · deliver · talk-chain/mystery · puzzle · build/craft · explore · **photo (diorama camera)** · social/co-op; enrich `generateRingQuest`
- **K4** — Daily board + **Renown** ladder (character-bound dailies → sparqs+streak; Renown gates advanced campaigns/stores/rare décor; Renown also fed by real taps — the moat)
- **K5** — Flagship multi-day/endless campaigns: Widening Sea · Lantern Line · Cartographer's Circles · Founding a Homestead · Storm Season (co-op ones ride the party board)

□ **K6** — Seasonal festivals: Lantern (winter) · Bloom (spring) · Starfall (summer) · Hollow Night (autumn) — time-boxed, yearly, exclusive cosmetics

F · Town stores (NPC shops) (*X issues pending — Linear cap*)

- **F1** — Shop buildings → interiors + shopkeeper NPCs
- **F2** — Store inventory model (common + exclusives + special SPARQS items)
- **F3** — Store panel + buy flow (replaces menu-buying)
- **F4** — Quest-gated / hidden stores

G · Music & SFX (*X issues pending — Linear cap*)

- **G1** — CIRQLSPACE MusicKit — adaptive hybrid music (area-varied)
- **G2** — Action + movement SFX
- **G3** — Mix/mute controls + integration
