

# Privacy Policy

---

Effective date: [EFFECTIVE DATE]

**Draft for legal review — not yet in force.** Adapt every section to your actual data practices before publishing.

[COMPANY LEGAL NAME] ("Cirqlback," "we," "us") respects your privacy. This Policy explains what we collect, why, how we use and share it, and your choices. It applies to the Cirqlback websites, apps, and tap-to-earn Service. By using the Service you agree to this Policy.

We built Cirqlback to be **privacy-light by design**: customers can tap and earn without creating a traditional account, and we ask for the minimum information needed to run the Service.

## 1. Information we collect

**You give us:**

- **Account details** — for businesses and coordinators: name, email, business information, and login credentials. For customers: an **optional** email (many features work anonymously).
- **Content** — business listings, hosted-page content, images, badge art, messages, and feedback.
- **Payment information** — handled by **Stripe**. We do **not** store full card numbers; we receive limited billing metadata (e.g., last four digits, status) from Stripe.

**We collect automatically:**

- **Tap / activity data** — when you tap an NFC tag or scan a QR code: which tag/business, timestamp, points earned, streak and reward progress.
- **Approximate location** — for the discovery map and location-based features, where you permit it. You can decline location access in your device/browser.
- **Device and usage data** — IP address, device/browser type, pages viewed, and similar log data, used for security, analytics, and reliability.
- **Cookies and similar technologies** — see Section 6.

**From third parties:**

- Payment and payout status from Stripe; mapping data from our maps provider; limited data from a business or coordinator who lists or refers you.

We do **not** knowingly collect sensitive categories (e.g., precise health, biometric, or government-ID data) through normal use.

## 2. How we use information

- Operate the Service: award points/rewards/badges/streaks, run campaigns, power the discovery map, and process payments and coordinator payouts.
- Provide support and the optional in-app AI Help Assistant (see Section 5).
- Protect the Service: detect and prevent fraud, abuse, and reward manipulation, and enforce our Terms.
- Improve the Service: analytics and product development.
- Communicate: service messages, and — where permitted — updates and offers you can opt out of.
- Comply with law and enforce our rights.

We rely on the legal bases of **performance of a contract**, **legitimate interests** (security, improvement), **consent** (e.g., location, marketing), and **legal obligation**, as applicable.

## 3. How we share information

We do **not sell** your personal information for money. We share it only:

- **With businesses and coordinators** you interact with — a business can see activity relevant to its own loyalty program (e.g., taps and rewards at that business); a coordinator can see activity within their territory. We share the minimum needed and, for customers, favor aggregated or pseudonymous data.
- **With service providers** ("processors") who run parts of the Service under contract — e.g., **Stripe** (payments/payouts), our **hosting** provider, our **maps** provider, and our **AI** provider for the optional assistant. They may use the data only to provide their service to us.
- **For legal reasons** — to comply with law, respond to lawful requests, or protect rights, safety, and the integrity of the Service.
- **In a business transfer** — as part of a merger, acquisition, or sale of assets, subject to this Policy.

## 4. Your choices and rights

- **Optional email / anonymity** — customers can use core features without an email.
- **Location** — controllable via your device/browser settings.
- **Marketing** — opt out via the unsubscribe link or by contacting us.
- **Access, correction, deletion** — you may request a copy, correction, or deletion of your personal information, subject to legal limits. Contact [\[PRIVACY EMAIL\]](#).

**California residents (CCPA/CPRA):** you have rights to know, delete, correct, and opt out of "sharing"/"sale" (we do not sell for money) and to non-discrimination for exercising them. **EU/UK residents (GDPR/UK GDPR):** you have rights to access, rectification, erasure, restriction, portability, objection, and to lodge a complaint with a supervisory authority. To exercise any right, contact [\[PRIVACY EMAIL\]](#); we may verify your identity first.

## 5. AI Help Assistant

The optional in-dashboard Help Assistant sends your questions and limited context to our AI provider to generate answers grounded in Cirqlback's user guides. Do not enter sensitive personal information into it. AI responses may be imperfect — verify anything important.

## 6. Cookies

We use cookies and similar technologies to keep you signed in, remember preferences, secure the Service, and understand usage. You can control cookies through your browser; disabling some may break features (e.g., staying logged in). If required in your region, we will present a cookie/consent banner.

## 7. Data retention

We keep personal information only as long as needed for the purposes above, to comply with law, resolve disputes, and enforce agreements — generally [\[DATA RETENTION PERIOD\]](#), after which we delete or anonymize it. Payment records are retained as required by tax and accounting law.

## 8. Security

We use reasonable technical and organizational safeguards (encryption in transit, access controls, and reliance on PCI-compliant Stripe for card data). No system is perfectly secure; we cannot guarantee absolute security. If a breach affecting your information occurs, we will notify you and regulators as required by law. See our internal safeguards program for details.

## 9. Children

The Service is not directed to children under 13, and we do not knowingly collect their personal information. If you believe a child has provided us information, contact [\[PRIVACY EMAIL\]](#) and we will delete it.

## 10. International users

We operate in the United States and store data there. If you access the Service from outside the U.S., you consent to processing in the U.S., which may have different data-protection laws than your country.

## 11. Changes to this Policy

We may update this Policy. Material changes will be posted with a new effective date and, where required, additional notice. Continued use after changes means you accept the updated Policy.

## 12. Contact

Privacy questions or requests: **[PRIVACY EMAIL]** · **[COMPANY LEGAL NAME]**, **[BUSINESS ADDRESS]**.
